## Load Testing

[info@renown-group.co.uk](mailto:info@renown-group.co.uk) | +44 (0)191 250 0113 | [www.renown-engineering.co.uk](http://www.renown-engineering.co.uk)

Renown Group offer design, manufacture and testing of bespoke mechanical equipment and systems.

Our priority is providing customers with innovative and effective solutions with rapid turnaround. Our safety focus ensures we adhere to statutory health and safety obligations.

### Load Testing Capabilities/Capacities

5m long load test bed capable of testing components to a max load of 55 tonnes.

Jacking system capability ranging from 50kg up to 1200 tonnes.

We offer a comprehensive range of engineering services including: proof load testing and

non-destructive testing covering all varieties of products for Energy, Marine, Asset protection and Defence sectors for example:

- Split Clamps, Padeyes, Anchor Collars, UTA's, Bend Limiters.
- Lifting beams, Cradles, Containers, Ramps, Transport Frames.

### Certification

All load Test equipment is calibrated and traceable to UKAS standards, including Load Cells, Hydraulic Gauges, and Jacking Systems.

All items supplied with test and Calibration certification upon request.
